

NeoCon 2026: Odyssey Grows Up with Stools, Tables, Brackets, and a Smarter Waiting Room

Alison Werber - June 8, 2026

Integra's Odyssey Collection took home a Best of NeoCon Gold Award in 2025. This year, it comes back with a lot more to show.

Debuting as an expanded commercial seating system at NeoCon 2026, Odyssey adds counter and bar-height stools, connecting brackets, integrated tables, and a personal item shelf. What was a strong standalone chair is now a planning tool. The slim tapered legs and continuous wraparound cap read the

The connecting brackets are the quiet win here. Row seating in healthcare, education, and transit environments tends to look like an afterthought. Odyssey's brackets pull chairs into clean, organized arrangements without sacrificing the collection's airy silhouette. Dymetrol suspension and a hook-and-clip upholstery system handle the durability side, keeping maintenance labor low over a long lifecycle. The wraparound form doubles as a handle, which anyone who has rearranged a waiting room mid-shift will appreciate.

For designers specifying across healthcare, workplace, and hospitality environments, the expanded Odyssey offers something the original couldn't quite claim: genuine flexibility. **Integra's Summit Lounge** showed the brand understood high-performance commercial seating. This collection shows they understand the room. Find the Odyssey Collection Expanded at NeoCon 2026, June 7-10, at The Mart, 10th Floor, Showroom #10-140.
