Integra Seating Announces New California Rep Partners

Integra Seating has added two new representatives to its Southern California sales team.

Lechner

Polsfuss

Lacey Lechner, principal of DKMR Projects, will represent Integra Seating across the LA area, including Los Angeles, San Luis Obispo, Kern, Santa Barbara, Ventura, North Riverside and San Bernardino counties. DP Design Studio's principal, Diana Polsfuss, will represent Integra Seating across San Diego, Orange County, South Riverside and Imperial Counties.

Together, the two representatives extend Integra's coverage across Southern California and the Central Coast, giving designers, end-users, and dealers in those markets local support for Integra's full line of high-performance lounge seating, guest seating, and tables.

"Lacey and Diana each bring deep relationships and a genuine understanding of what is needed in these markets," said Chandra Putnam, President of Integra Seating. "Adding DKMR Projects and DP Design Studio to our team strengthens our presence across Southern California to continue to grow across all commercial markets."

Integra's product line of high-performance lounge seating, all built with Integra's component-based construction for exceptional strength, durability and cleanability, is proudly made in the USA.
