Integra Introducing Two New Lounge Seating Designs at NeoCon 2022

JUNE 10, 2022 · OFFICING.COM RESEARCH STAFF · NEOCON 2022

Integra will debut two new lounge seating designs at NeoCon 2022. With the continued popularity of its Coffee House Collection, Integra Seating is introducing kids-sized lounge seating: The CH Kids Collection, which perfectly complements the standard sized. The Reef Rocker is a fully upholstered lounge chair with a rocking base. Visitors to NeoCon 2022 can view these new products at Integra's showroom (10th floor, #10-140) June 13-15.

CH Kids is a comfortable, fully upholstered lounge collection scaled for kids with several options, including an ultra-strong tablet, which provides an exceptional surface for reading, studying or playing. Two straight units in 20"w and 40"w, inside and outside curves, upholstered arm options and several ottomans give design flexibility when specifying this collection. Legs are available in wood, metal, and casters for mobility. The clean-out seat is a standard feature of the CH Kids Collection.

The Reef Rocker is a comfortable, fully upholstered rocking lounge chair. The chair will make users feel welcome with its generous size, comfort and warm aesthetic. Studies have identified several benefits of the rocking motion to include: reducing stress and anxiety, having a calming effect and other benefits. The Reef Rocker can blend seamlessly into many environments. Wood and HDPE rocking bases are available, in addition to wood and solid surface arm caps options. A clean-out seat is another functional option.
