MechoSystems: ElectroPocket

2017 Nightingale Award Winners Announced

Contract Editor in Chief John Czarnecki and *Healthcare Design* Editor in Chief Jennifer Silvis presented the winners of this year's Nightingale Awards on November 13, 2017, at the Healthcare Design Expo + Conference at the Gaylord Palms Resort and Convention Center in Orlando, Florida. Named after Florence Nightingale, the awards recognize contributions to the healthcare built environment through product design and innovation that contributes to healing. The Nightingale Awards are presented by *Contract* and *Healthcare Design* magazines in partnership with the Center for Health Design.

A jury of healthcare architects, interior designers, and facilities managers selected 27 winners in 14 product categories. The Nightingale Best of Competition award winner is Mohawk Group in the carpet category for Lichen (pictured in both photos). The collection was also honored with the Gold Award in Carpet.
