

Color Inspiration Board | BARK

by Kimberle
Frost

Kimberle has over 25 years of experience as an independent consultant offering services in textile design and styling, color consultation, and textile marketing in both the contract and residential markets. Her portfolio includes textile work for highly regarded companies such as Robert Allen, Designtex, Mayer Fabrics, Momentum, Arc Com and Ultrafabrics.

The bark of a tree has layers of color and shades that range from a light grayish brown to the darkest of espresso brown. The richness of the BARK color family lies in the overlapping of these warm, distinctive shades of brown. ~ Kimberle Frost

Powder Coats: Bark and Bronze
